## Model UN Trivial

- Simulating international organizations began even before the birth of the United Nations, when students held a series of Model League of Nations in the 1920s.
- There are an estimated 400 Model U.N. conferences held annually in 35 countries. These conferences take place virtually every month throughout the school year.
- Depending on the location, the average conference can have as few as 30 students or as many as 2,000.
